## SET NAVIGATION SYSTEMS

Studied and designed for the most extreme weather conditions!

WLPcom WT-10 4X4 PRO

Perfect for any type of vehicle, this NAVITAB offers a 10" screen and 1.000 nits, perfect partner for lovers of off-road, adventuring or outdoor trips, those who prefer a large screen.

WLPcom WT-8 RACE

Specially created to comply with the regulatory parameters of international competitions, it has an 8" screen and 1.500 nits, bringing it to the top of the category.

Ideal terrain such as deserts and similar.

WLPcom WT-7 PRO

Perfect system as a support in all your adventures, be it a road trip, an off-road trip or why not at work: all our NAVITAB are equipped with an ANDROID system therefore they support any type of APP that can be downloaded from the dedicated store, transforming themselves into the perfect ones if necessary travel friends. 7" screen and 1.000 nits suitable for any type of motorbike: enduro, dual, road, custom, etc.

WLPcom WX-7 RENT

One of the most efficient NAVITAB today designed and used in competitions and support for trips of all kinds. The WT-7 RENT now used for rental has a 7" 16/9 screen and a brightness coefficient of 2,000 nits.

Don't have support to install it? We'll provide you with one on the handlebars and you'll be ready to go.

## NAVIGATION EQUIPMENT RENTAL

Today it is possible to use and/or try the famous "WLPcom Navigation System". An excellent opportunity for individuals or groups who, not having a similar tool, can approach navigation without having to make an immediate purchase. First time at a race/event with roadbook? Our NAVITABs are among the best in precision, power and reliability, usable with both GPX tracks and electronic Roadbooks. Challenge yourself!
